

## Invitation to the field workshop „Green and Blue Technologies in Water Protection”

*Dear Sir or Madam,*

We warmly invite staff members and PhD students of the ZUL network universities, partners of the project **AIM – Attracting International Minds. Lublin NAWA-EURAXESS Network** to participate in the field workshop from the series “Academic Walks with the Nature of Poland.”

**Location:** Zwierzyniec, Roztocze National Park

**Date:** May 6, 2026

### Instructors:

- Prof. dr hab. Krzysztof Józwiakowski
- Dr hab. Barbara Sowińska-Świerkosz

### About the workshop:

Participants will explore the concept of green and blue technologies and their practical applications in natural environments.

### Workshop objectives:

- enhance knowledge and competencies in modern water protection methods,
- present Nature-Based Solutions and best practices,
- introduce water retention, treatment, and management methods,
- present technologies for water quality monitoring and stormwater management,
- promote inter-university cooperation in climate change adaptation.

The workshop will contribute to raising environmental awareness and developing practical recommendations for implementation.

### Workshop programme:

**08:00–10:00** – Transfer from Lublin to Zwierzyniec

**10:00–11:00** – Welcome and introductory lecture

**11:00–14:00** – Presentation of technologies in Roztocze National Park (including stormwater management systems and constructed wetlands; discussion of water protection issues based on the Echo Ponds and the Świerszcz River)

**14:00–16:00** – Campfire and networking

**16:00–18:00** – Return to Lublin

### Registration:

Staff members and PhD students working or studying in the Doctoral Schools of the following partner universities are invited to participate:

- Maria Curie-Skłodowska University
- University of Life Sciences in Lublin
- John Paul II Catholic University of Lublin
- Lublin University of Technology
- Medical University of Lublin

If you would like to participate in the workshop, please complete the registration [form](#) by **22<sup>nd</sup> April 2026**. The aim of the workshop is to combine natural sciences popularisation with intercultural integration. The number of places is limited to approximately 20 participants, including at least 10 international participants, and will be allocated according to the order of submission.

The organisers will ensure a balanced selection process, allowing representation from all partner institutions.
